

Daftar Tautan Unduhan Jurnal Proposal Skripsi FHE Backend

Muhammad Ulinnuha
23/516588/PA/22101

14 Juli 2026

Dokumen ini merangkum seluruh referensi yang dipakai pada proposal, lengkap dengan tautan unduhan (klik di PDF viewer yang mendukung hyperlink) dan lokasi file lokal di folder **refs/** bila sudah tersedia. Gunakan dokumen ini untuk mengisi arsip bacaan atau mengunduh ulang paper yang hilang.

Keterangan

- **OA** = open access / PDF gratis tanpa login (pada saat dicek).
- **DOI** = laman penerbit; kadang memerlukan akses kampus/IEEE/Springer.
- File lokal mengacu ke folder **refs/** di repositori proposal.

1 Referensi utama proposal (12 entri)

1. **Devi & Jayasri (2025)** — Privacy Preserving Healthcare Based on Secure Mathematical Foundations of FHE.
DOI: <https://doi.org/10.1109/ESCI63694.2025.10988128>
Lokal: refs/01_Devi_2025_Privacy_Healthcare_FHE.pdf
2. **Peker & Raj (2025)** — Homomorphic Encryption for Confidential Statistical Computation.
PDF MDPI (OA): <https://www.mdpi.com/2624-800X/6/1/4/pdf>
HTML: <https://www.mdpi.com/2624-800X/6/1/4>
Lokal: refs/02_Peker_2025_Confidential_Statistical_FHE.pdf
3. **Epishkina & Ermakov (2025)** — Homomorphic Encryption for Data Protection in Cloud Computing.
DOI: <https://doi.org/10.1007/s11416-025-00552-6>
Lokal: refs/03_Epishkina_2025_HE_Cloud_Computing.pdf
4. **Vinko et al. (2026)** — Secure-by-Design FHE for Proficiency Testing / ILC.
PDF MDPI (OA): <https://www.mdpi.com/2673-4001/7/1/14/pdf>
HTML: <https://www.mdpi.com/2673-4001/7/1/14>
Lokal: refs/04_Vinko_2026_Secure_by_Design_FHE.pdf
5. **Wu et al. (2025)** — Homomorphic Encryption for ML with CKKS: A Survey.
Penerbit: <https://www.techscience.com/cmc/v85n1/62800>
DOI: <https://doi.org/10.32604/cmc.2025.064346>
Lokal: refs/05_Wu_2025_CKKS_ML_Survey.pdf

6. **Li et al. (2026)** — Survey of Optimization Techniques for Bootstrapping Algorithms in FHE.
DOI / Springer (OA): <https://doi.org/10.1186/s42400-026-00571-w>
Lokal: refs/06_Li_2026_Bootstrapping_Survey.pdf
7. **Fan et al. (2026)** — Understanding and Boosting FHE Applications on GPU.
DOI / Springer (OA): <https://doi.org/10.1186/s42400-025-00482-2>
Lokal: refs/07_Fan_2026_FHE_on_GPU.pdf
8. **Xu et al. (2026)** — HERA: Bandwidth-efficient FHE Accelerator on HBM FPGA.
DOI ACM: <https://doi.org/10.1145/3748173.3779201>
Lokal: refs/08_Xu_2026_HERA_FPGA.pdf
9. **Lee et al. (2025)** — Homomorphic Evaluation Cluster Architecture for FHE.
DOI IEEE Open: <https://doi.org/10.1109/OJCAS.2025.3568058>
Lokal: refs/09_Lee_2025_HE_Cluster_Architecture.pdf
10. **Al Badawi et al. (2022)** — OpenFHE: Open-Source Fully Homomorphic Encryption Library.
PDF ePrint (OA, wajib untuk stack prototipe): <https://eprint.iacr.org/2022/915.pdf>
Halaman: <https://eprint.iacr.org/2022/915>
Lokal (jika sudah diunduh): refs/10_Badawi_2022_OpenFHE.pdf
11. **Brynds et al. (2025)** — CryptOracle: Modular Framework to Characterize FHE (Open-FHE/CKKS).
PDF arXiv (OA): <https://arxiv.org/pdf/2510.03565.pdf>
Abs: <https://arxiv.org/abs/2510.03565>
Lokal: refs/11_Brynds_2025_CryptOracle.pdf
12. **Benaissa et al. (2021)** — TenSEAL: Encrypted Tensor Operations Using HE (jalur cadangan SEAL).
PDF arXiv (OA): <https://arxiv.org/pdf/2104.03152.pdf>
Abs: <https://arxiv.org/abs/2104.03152>
Lokal: refs/12_Benaissa_2021_TenSEAL.pdf

3 Catatan unduhan

- Paper arXiv dan IACR ePrint biasanya paling mudah diunduh tanpa login.
- MDPI dan Springer Open Access juga menyediakan tombol PDF langsung.

- IEEE/ACM kadang memerlukan jaringan kampus atau akun institusi; salinan lokal di `refs/` sudah disiapkan bila file sumber ada di folder proposal.
- Setelah mengunduh OpenFHE (no. 10), simpan sebagai `refs/10_Badawi_2022_OpenFHE.pdf` agar penamaan konsisten.

4 Apakah perlu scaffold backend sekarang?

Pada tahap **proposal**, scaffold OpenFHE/FastAPI **belum wajib**. Proposal sudah memuat stack, endpoint, beban kerja, dan kriteria uji. Scaffold menjadi relevan setelah proposal disetujui, yaitu saat masuk implementasi skripsi (tonggak 1–4 di BAB IV). Memulai scaffold terlalu dini berisiko mengubah desain sebelum umpan balik pembimbing masuk.
